#### Glossary:

- State Board of Education: Creates education policies in a specific state ranging from high school graduation requirements to qualifications for teaching personnel.
- State Education Agency: State-level government organization within each state responsible for public k-12 education. It is primarily made of career employees, often referred to as civil servants, whereas a board of education is often appointed by the governor.
- Chief State School Officer: Directly responsible to the state board of education. The state school officers are responsible for educational policy setting and overseeing education-related issues and problems; they influence policy and regulatory changes. They are sometimes called state superintendent or commissioner of education.
- Professional Standards Commission: Makes recommendations to the State Board of Education about standards for public school educators, administrators, and contractors.
- Standards Adoption: The process by which academic standards are achieved in a state.
- Teacher Licensure: Professional accreditation and requirements for teaching in a particular state.
